

Tec 5

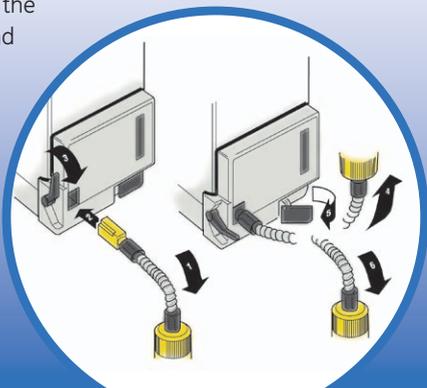

**Designed with a service life of ten years**

Tec 5 vaporizers are fast approaching the end of their designed life. Tec 5 vaporizers have not shipped since 2003 and GE-authorized factory service was discontinued effective December 31, 2010.

**Say goodbye to the six-step Keyed filling process**

The complex filling procedure used with the Tec 5 has evolved into a faster, easier and more cost-effective process.

# It's time to get the Tec\* 7 vaporizer

A vaporizer is far more than just a drug holder. It's a vital piece of patient care equipment that must be reliable for the long term.

Backed by 100 years of anesthesia delivery experience, GE Healthcare has created the Tec 7 with a look and feel that integrates seamlessly with the rest of your GE system, while delivering key advantages over the Tec 5 vaporizer.

**Easy-Fil\*, as simple as 1-2-3, no instructions needed**

The patented design of Tec 7, includes the Easy-Fil Adapter, improving workflow with faster, easier fills and maximizing ease of use while minimizing the potential for user variability, leaks and spills by taking the complexity out of the filling process.

To find out more about how the Tec 7 can improve patient care and your bottom line, please contact your local GE Healthcare sales representative

Tec 7 is factory service-free, eliminating the three-year scheduled service periods of the Tec 5, saving you money on service fees.
